ESTABLISHED A.D. 1851.

WILLIAM KELWAY. JAMES KELWAY.

LIVING IN THE COUNTRY, UPON THEIR OWN LANDS, KELWAY & SON are able to give that continuous personal supervision to the selection and saving of Stock Seeds which is necessary to ensure the purity and high quality which the Trade requires.

We have taken a step which we trust will commend itself to the trade in general, viz., **printing living prices which**—as long as unsold and without engagement—**we are willing to accept.** There appears to be no advantage either to our customers or ourselves in printing a catalogue with prices which are prohibitive and misleading.

We reserve to ourselves at the same time entire liberty to accept or decline any order received. The prices are nett, except that they are subject to the ordinary discounts for cash We shall, however, be glad to have the opportunity of making a further allowance in order to meet any reputable competition.

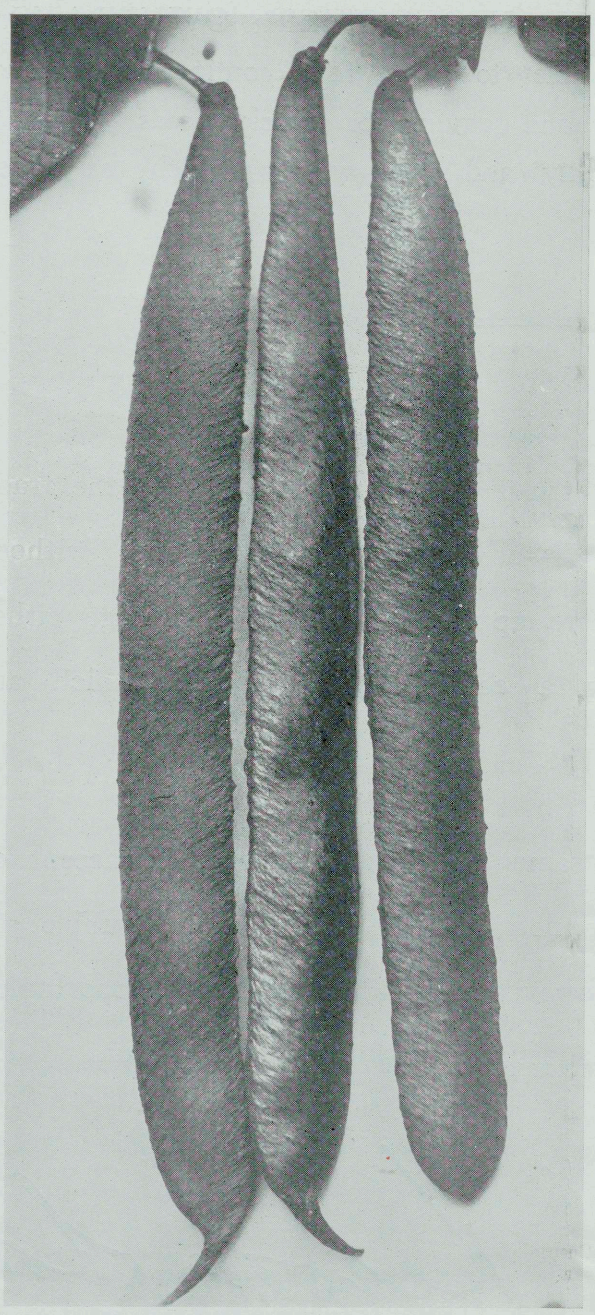
KELWAY & SON'S
List of Specialities in Vegetable Seeds

i.e.—Specially selected strains for which, on account of their extra quality, the firm has a celebrity.



KELWAY'S MONARCH RUNNER.

Broad Bean.

Per bush.—s. d.

KELWAY'S PRIZETAKER EXHIBITION LONGPOD. As the result of careful selection, this variety is of first size and quality; splendid for exhibition or the table. To ensure this in Broad Beans, the most rigid care has to be undertaken as they so soon deteriorate, from the original **20 0**

BUNYARD'S EXHIBITION; KELWAY'S very choice selected stock **16 0**

Owing to competition, Bunyard's Bean, as now commonly offered, is a deterioration from the grand variety it originally was. We have grown the variety true from the time it was introduced, and our selected stock is as near as possible to the original.

Kelway & Son were awarded a vote of thanks by the Royal Horticultural Society, for exhibiting their superior strain of this variety, as grown at Langport.

Runner Bean.

KELWAY'S MONARCH RUNNER, a decided improvement in Scarlet Runners; earlier and larger, of very robust habit, and exceedingly prolific .. **40 0**

Beet.

The Trade find it one of the most difficult of things to obtain a reliable dark Beet, true to its character. We have pleasure in offering the following kinds to those who have been disappointed. They are well-known to our regular customers. The growing of Dark Garden Beets for the Trade has been an employment with us for half-a-century.

Per lb.—s. d.

KELWAY'S CRIMSON GEM, the finest for exhibition, very handsome, of perfect shape, and rich crimson inside and out **5 0**

KELWAY'S THE SHAH, this is a magnificent variety for decorative purposes and for bedding, being of a dwarf habit; the broad handsome shining foliage is equal in colour to the finest crimson *Dracæna* **7 6**

KELWAY'S CHOICE DWARF DARK, one of the darkest and most tender and best flavoured varieties in cultivation, with a small top, rich colour, and excellent flavour; fine for exhibition. This variety has a world-wide reputation for being the **finest type of dark Beet for general use** .. **3 6**

DELL'S, KELWAY'S very extra selected **2 6**

Borecole.

KELWAY'S CHAMPION, a superior selection; dwarf, wonderfully compact and very ornamental; finely flavoured and very hardy **4 0**

Broccoli.

KELWAY'S MAMMOTH, the best of all the late Broccolis, and the hardiest; it has been grown 16 lbs. in weight, and has stood such severe winters as that of 1890-91, when all other varieties in the neighbourhood have been killed. Particularly handsome close heads. Splendid for exhibition **8 0**

KELWAY'S SELECTED GEM, the best early variety for general use; very close hearts.. .. .. **8 0**

KELWAY'S DREADNOUGHT, very hardy; extremely large, white and compact.. .. .. **8 0**

Brussels Sprouts.

Per lb.—s. d.

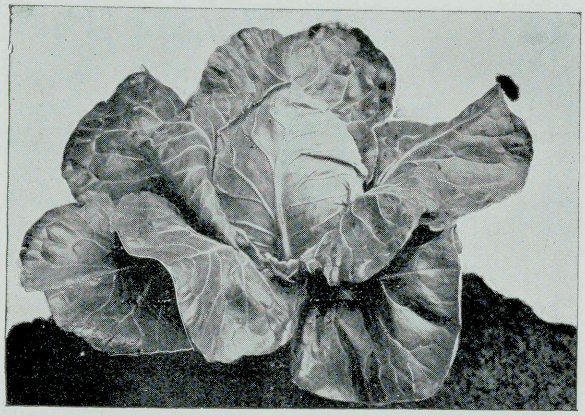
KELWAY'S EXHIBITION, a very superior selection which can always be relied upon. Very fine even-shaped sprouts, of good size and flavour; not a coarse sprout, and not too small. Most prolific. Splendid for exhibition **4 0**

KELWAY'S PROLIFIC is, as its name implies, exceedingly prolific. An unexcelled selection .. **4 0**

CABBAGE, KELWAY'S STANLEY

Cabbage.

KELWAY'S STANLEY, the earliest Cabbage and the best in quality of all the early varieties; of medium size, very firm at the heart, with very few outer leaves, and these free from coarseness; in colour dark green with small white veins. None of the novelties which we have had in our trials are superior, or even equal to this as an early variety. For exhibition **7 6**

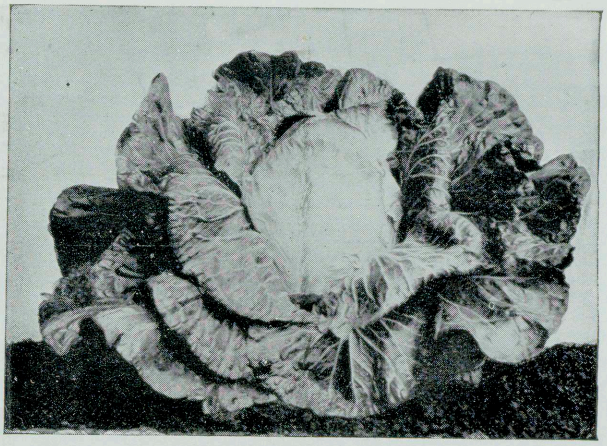


CABBAGE, KELWAY'S MONARCH.

KELWAY'S MONARCH, a superior early variety, which is valuable also as a main crop; very compact habit, of medium size with large, hard hearts **7 6**

KELWAY'S PLACEBO, this variety is recommended as the finest quality large main or late crop sort possible to grow. Though large and close, the hearts are very tender, and there is a lack of any coarseness in the outer leaves. A grand handsome variety for the exhibition table. The colour is dark green **7 6**

NONPAREIL, KELWAY'S IMPROVED LANGPORT, very extra **4 0**



CABBAGE, KELWAY'S PLACEBO.

Carrot.

Per lb.—s. d.

"THE KELWAY," is the brightest scarlet as to skin, of finest grain or texture as to flesh, and most delicate in flavour; it is of the most perfect form, with a broad high shoulder. About five inches in length. Simply unequalled for exhibition .. **3 6**

KELWAY'S IMPROVED SCARLET INTERMEDIATE. Most carefully grown and selected **2 6**

KELWAY'S LIGHTNING HORN for forcing. Marvellously quick in growth, small, almost globular, very tender; earliest and best of all early carrots **2 6**

Cauliflower.

KELWAY'S BEST OF ALL, the best variety for general and late use, coming to maturity in a short space of time; of a very delicate flavour, very handsome, with heads of tremendous size and depth, noted for being the only Cauliflower in some districts still being cut when others are over **16 0**

Celery.

The following grown from Fine Selected Heads.

	Per lb. s. d.	Per oz. s. d.
KELWAY'S GIANT SOLID RED. This variety is still being selected with great care; it is the best variety for general use, and as an exhibition kind is unequalled	**6 0**	**0 9**
KELWAY'S GIANT SOLID WHITE, This varies from the red only in colour; it is exceedingly crisp and sweet; splendid for exhibition	**6 0**	**0 9**

Cucumber.

	Per 100 seeds. s. d.	Per oz. s. d.
KELWAY'S EXTRA-SELECTED AND IMPROVED TELEGRAPH. The best of all Cucumbers for growing for market. We could not possibly speak too highly of this strain..	**3 6**	**20 0**

Sirs,—Having grown your **Telegraph (Kelway's Improved)** Cucumbers for the last six years, and being large growers of same, we have this season four span-roof houses 50 feet each in length. The Cucumber fruits at every joint and throws out three to four fruits. We have had several persons in the trade visiting us this season, and they tell us they never saw such a sight. You may use this in any way you please, and we shall be pleased to show anyone over the nursery.

W. & G. DROVER, F.R.H.S., F.N.C.S.,
Fareham Nursery.

CUCUMBER, KELWAY'S PRINCE OF WALES, SEEDING.

Cucumber—continued.

	Per 100 seeds. s. d.	Per oz. s. d.
KELWAY'S CONQUEROR, exceedingly large and long	3 0	15 0
—— **PARAGON,** a remarkably productive, handsome, and very distinct variety, with scarcely any neck	3 0	15 0

THE OAKS NURSERY GARDENS, HENDON.—"I should like to say that for the past *nine* years I have grown your **Paragon** Cucumber for market, and found it to excel all others."

—— **PRINCE OF WALES,** short handle, will grow 40 inches, very prolific, fine for exhibition	3 0	18 0
—— **PROLIFIC,** the best of all Cucumbers for garden use and exhibition; result of a cross between *Prince of Wales* and *Tender and True*. Very handsome and early, 24 inches in length. Two and three fruits are usually produced at each joint	3 6	20 0

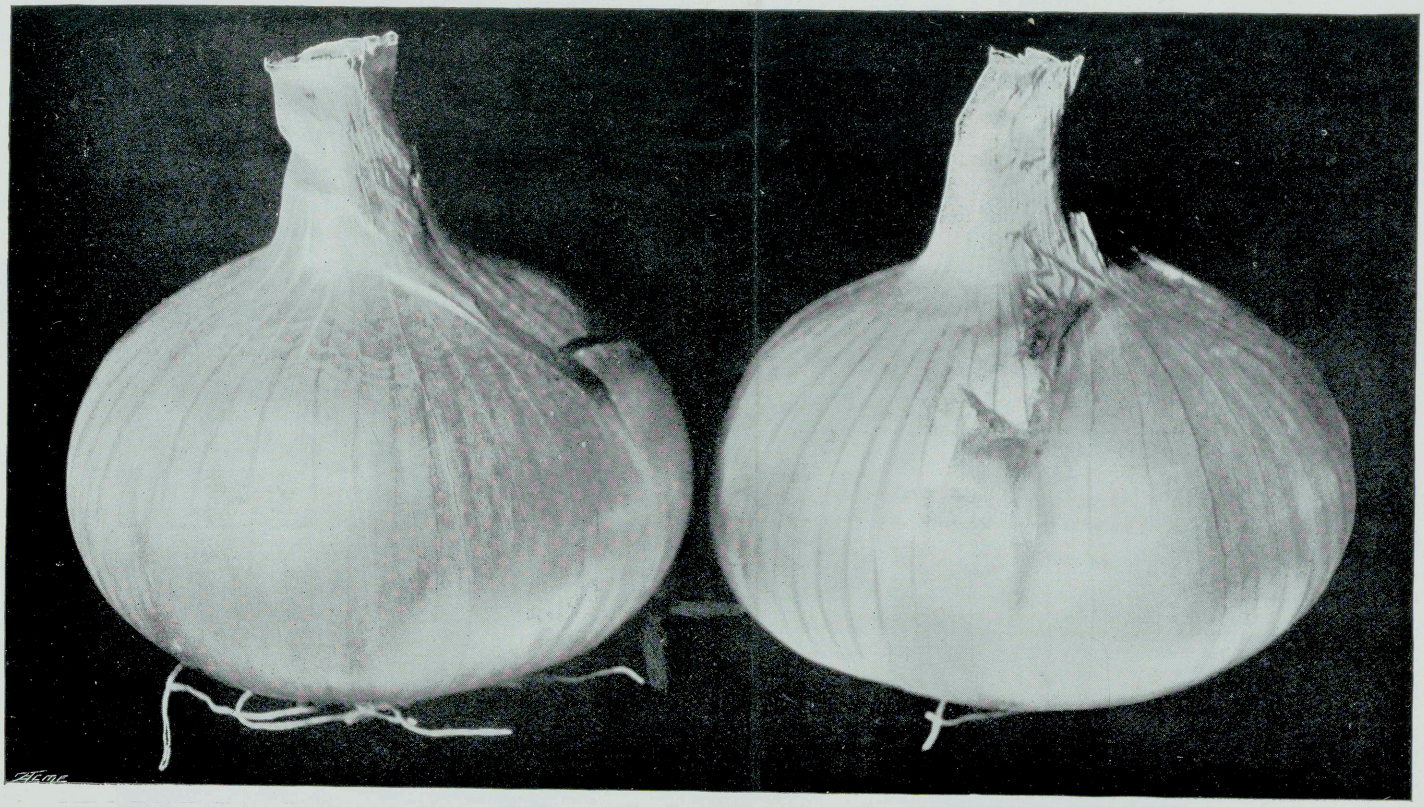
"KELWAY'S PROLIFIC" CUCUMBER.—Growers on the look-out for the best Cucumbers will do well to note the above. For those who grow Cucumbers under a high temperature, with bottom heat, this is certainly a very useful variety, the best we have. It very quickly comes into bearing, and has fruit of a pleasing colour, above the ordinary size; the foliage is good and strong, and with no shading required it has much to commend itself. Growing in the same house, under the same conditions as other good, proved varieties, it has made its mark. Sown at the end of January, and planted out the end of February, good fruits were cut at the end of March, while all through April it has been the best cropper. With such a multitude of good things annually presented to us by seedsmen, the difficulty of selecting and proving them is great, so growers should make a note of a variety that has been tried.—STEPHEN CASTLE, F.R.H.S., in *The Gardener's Magazine*.

Pea.

	Per bush.—s. d.
GRADUS, KELWAY'S SUPERIOR STRAIN	32 0

Kelway and Son were awarded a vote of thanks by the Royal Horticultural Society for an exhibit of their superior strain of this variety as grown at Langport

GRADUS, KELWAY'S SUPERIOR STRAIN.



ONION, KELWAY'S HERO.

Leek.

Per lb.—s. d.

KELWAY'S PRODIGY, the finest variety for exhibition and general use ; very hardy and of fine flavour ; this has been tried side by side with all the advertised "best" sorts, and has proved the finest of all, and in Scotland the hardiest of any ; specimens have been grown weighing upwards of 4 lbs. each **10 0**

Lettuce, Cabbage.

KELWAY'S MONARCH. This variety takes the lead amongst the large Cabbage Lettuces ; it is nearly all heart, the leaves are beautifully curled and are exceedingly crisp and good. It stands well during either frost or drought.. W.S. **8 0**

Lettuce, Cos.

KELWAY'S SILVER COS. We introduce this variety as the finest and most highly selected *White* Cos Lettuce in cultivation. It is of large size, perfect from, self-folding, and very crisp ; it is hardly ever known to run to seed, is of very superior quality and grand for exhibiting.. W.S. **8 0**

Lettuce, Cos—continued.

Per lb.—s. d.

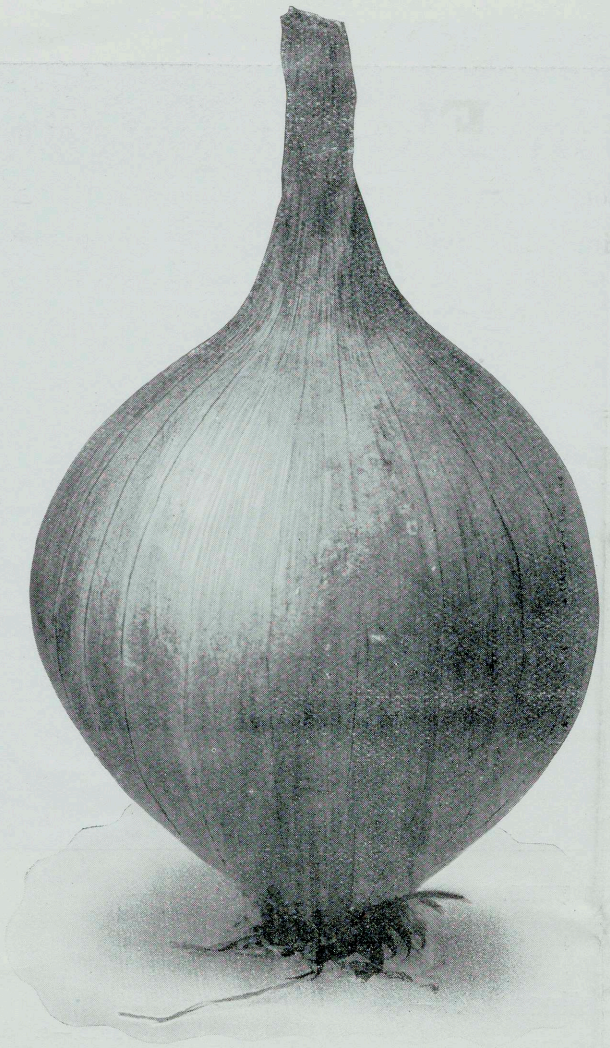
KELWAY'S EMERALD, a very superior green variety for general use ; fine for exhibition ; highly recommended ; there is no better sort .. W.S. **8 0**

KELWAY'S NEW PRIZETAKER, BROWN, the largest of the Cos varieties. Self-folding ; very shy seeder ; very crisp, and stands drought exceedingly well .. .. B.S. **5 0**

PARIS WHITE, KELWAY'S EXTRA SELECTED W.S. **5 0**

Onion.

KELWAY'S HERO. We recommend this as the finest form of a reliable heavy cropping and long-keeping Onion. The bulbs are exceedingly handsome when matured, and are continually taking prizes where exhibited. The colour of the skin is a tawny yellow or very light brown ; the bulbs attain a very great size, and on account of the density in texture of the flesh are of enormous weight ; they are of great depth without being swollen at the neck, and thus in shape are between the "globe" and "flat" varieties. We highly recommend it for general use as well as for exhibiting **10 0**



KELWAY'S IMPROVED CRANSTON'S EXCELSIOR.

KELWAY'S CRESTED GEM. One of our most popular specialities. It is without doubt the most lovely plant for garnishing that it is possible to conceive. The dwarf compact habit of the plant and the fineness of the closely cut foliage are unsurpassable. It should even be grown for using for table decoration with other leaves and flowers. It is a kind which has been fixed by long successive seasons' selection by ourselves.. **5 0**

Parsnip.

KELWAY'S DON, a variety of our introduction selected for handsome form, size, whiteness of skin and flesh, and firmness and solidity of texture. Specially recommended for exhibition .. **3 6**

ROOT SEEDS.

All our Stock Seeds are saved from specially-chosen transplanted Roots.

For very many years have we been Growers and Selectors upon our own lands near Langport of Special Stocks of Swedes, Mangolds and Turnips, and we honestly believe and state with the utmost confidence that purer and choicer kinds than our Special Sorts have never yet been sold. This refers in proportionate degree to our strains of other varieties. ALL are to be relied upon as the best of their kind, and undergo rigid selection.

To some varieties we have affixed prices which we are willing to accept at the moment of going to press, but we enter into no engagement to adhere to these prices for any period longer than suits ourselves.

Mangold.

Per cwt.—s. d.

KELWAY AND SON'S LANGPORT PRIZE-TAKER YELLOW GLOBE (Title Registered) The entire stock was originally selected from one bulb; it has a very small top and very few fibrous roots; it is therefore lifted with a minimum of labour, and is fed with a minimum of waste; its symmetrical shape and attractive colour make it unequalled for exhibition; the flesh is of the densest consistency and most nutritive quality, and it reaches a very great size; consequently it is *an exceedingly heavy cropper*, being absolutely unsurpassed in this latter respect. Having been fixed as a variety for such a number of years, its sportive character is *nil*. We are untiring in our annual labour of selecting stock roots to grow from. *We send a very fine coloured representation of this variety to those who stock it. It is mounted on canvas and rollers ready for hanging (see illustration herewith).*
Put up in 2lb., 4lb., 7lb. and 14lb. sealed printed canvas bags, at **56**/–, **50**/–, **48**/– and **45**/– per cwt. (carriage paid). The variety can only be obtained from **Kelway & Son, Langport.**

Mangold—continued.

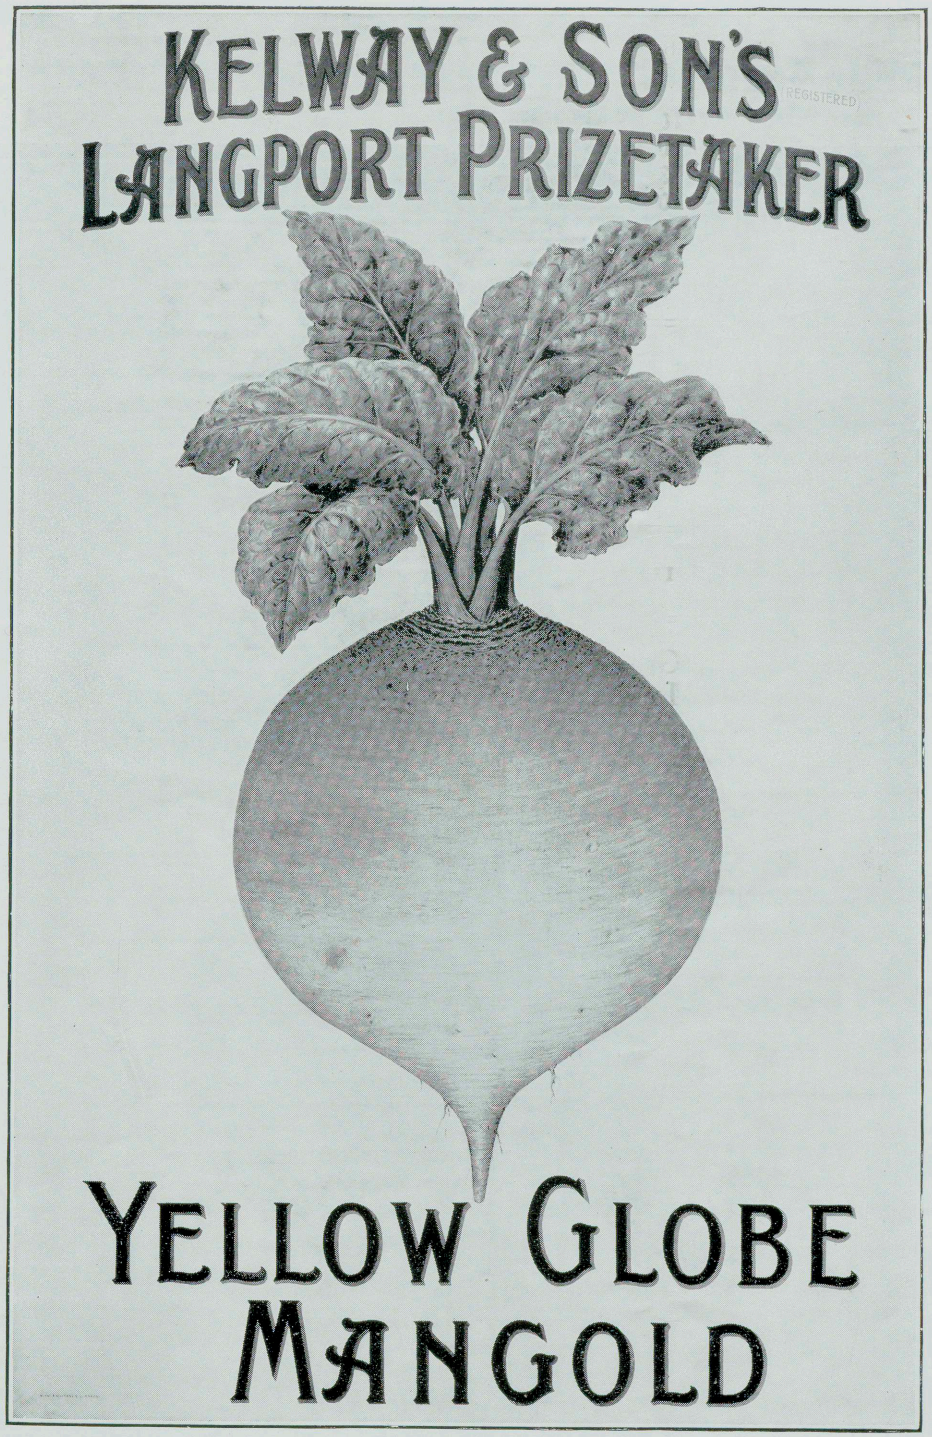
KELWAY'S IMPROVED CORNER'S YELLOW GLOBE. This needs no introduction in the West of England. The stock originated in our neighbourhood, and seed was obtained by us from Mr. Corner himself upon its introduction. Though so near perfection at that time, the great care we have bestowed upon it has evidently been appreciated by our customers **35 0**

KELWAY'S INIMITABLE LONG RED. An immense cropper. We recommend it beyond any for weight, feeding properties, and ease in lifting **32 0**

KELWAY'S RE-SELECTED MAMMOTH (or GIANT) LONG RED. The properties of the original Mammoth are well-known. This is a very careful selection from it, having in view the elimination of coarseness whilst keeping it of a large size **30 0**

KELWAY'S LORD OF THE ISLES INTERMEDIATE. A wonderful improvement upon the ordinary Intermediate, being a more fixed stock of the correct Intermediate type. Very rich in quality and clean lifting **40 0**



A representation of the coloured and mounted reproduction presented to all retailers of the variety.

KELWAY'S EXHIBITION GOLDEN TANKARD. We have never had greater satisfaction in introducing any sort than we have in recommending this superb variety. It was found amongst our "Model" Golden Tankard, to which it is superior in the dark colour of the skin and the rich golden hue of the flesh. The perfect "Tankard" shape of the original "Model" is retained, together with its highly saccharine quality and extreme solidity of flesh. An enormous weight per acre is obtained from it **38**/- per cwt.

KELWAY'S
Langport Mammoth.
(*Registered Title.*)
Purple Top.
The Hardy Swede.

Put up in 1 lb., 2 lb., 4 lb., 7 lb. and 14 lb. sealed printed canvas bags at **75**/–, **65**/–, **62**/–, **60**/– and **58**/– per cwt. (carriage paid). The variety can be obtained only from Kelway & Son, Langport.

This variety is *an enormous cropper*, and one of the *most hardy* and disease resisting sorts in cultivation, seldom getting mildewed. We have also noticed that it possesses the useful property of growing freely in all kinds of soils. It is as near as possible *globe shaped*, with a very short neck fully developed, dwarf foliage, and a clean single tap root. It possesses very dense sound flesh. The portion of the root growing out of the ground is of a deep plum colour. We annually save large quantities of this variety entirely from our own stock seed on account of the increasing favour with which it meets. Our stock is still as pure as ever; indeed we think we may say it is improving.

A fine representation of this variety, 2 feet by 3 feet painted in oils from nature, mounted on canvas, and framed, will be sent to all who stock it.—See annexed illustration.

KELWAY'S
Langport Monarch.
The Heavy-cropping Swede,
20/– per bushel.

N.B.—This should not be confused with a *Monarch* Swede which was introduced to the trade some time after this variety was sent out. The *Langport Monarch* is rather higher in the shoulder than the *Langport Mammoth*, and consequently each individual root is somewhat larger. The upper portion of the bulb is of a bright carmine colour. The flesh is very firm, the top short, and the absence of fibrous or forked roots remarkable. The crop per acre is unsurpassed in weight and quality.
